14 Nov 2026	Depart Marrakech 15:50	Arrive Prague 21:00

HOTEL DU GOLF BY PICKALBATROSS 5*

The elegant Hotel du Golf by Pickalbatros 5* is in the peaceful Palmeraie area, known for its extensive palm groves, just a few kilometres from the lively centre of Marrakech. Modern architecture with Moroccan touches, spacious gardens and golf course views create a pleasant setting for a relaxing or golfing holiday. The hotel is primarily intended for adult guests and offers comfortable rooms with balconies overlooking the gardens, pools or surrounding landscape.

A major advantage is direct access to the 18-hole championship golf course within the Palmeraie complex. Golfers can set off for the course practically from the hotel, while its location also makes other well-known courses around Marrakech easy to reach. After golf, there are several pools, a spa and wellness centre, a gym, restaurants serving Moroccan and international cuisine, and bars for a relaxed evening.

Hotel du Golf by Pickalbatros is an excellent choice for golfers who want to combine several rounds with a comfortable stay and time to explore Marrakech. Discover the local courses by day, then visit the historic medina, traditional markets and Moroccan restaurants in the evening. Golf, relaxation and the atmosphere of Marrakech make the hotel a very pleasant base for a golf holiday in Morocco.

PALMERAIE GOLF CLUB

In the heart of Marrakech's famous Palmeraie lies Palmeraie Golf Club, now also known as Golf Club Rotana Palmeraie. The main 18-hole, par-72 course was designed by the legendary American architect Robert Trent Jones Sr. Palm groves and the snow-capped Atlas Mountains form its distinctive backdrop. Rolling fairways cover approximately 60 hectares, with seven lakes adding both beauty and a technical challenge.

The course is designed to be enjoyable for recreational golfers while offering plenty of challenges for experienced players. Water, strategically placed bunkers and contoured greens call for careful club selection and shot placement. Several tee positions allow the difficulty to suit the player's level. Alongside the main 18 holes, the complex has a nine-hole, par-36 course, giving Palmeraie plenty of variety for a longer golfing stay.

A key benefit is its connection with the extensive Palmeraie Rotana Resort. Golfers have access to clubhouse facilities as well as the services of the resort directly beside the course. Its location near Marrakech makes it easy to combine golf with visits to the historic medina, local restaurants and other city attractions.

Palmeraie Golf Club is ideal for players seeking relaxed resort golf with a distinctly Moroccan atmosphere. Green fairways, water, thousands of palms and views of the Atlas Mountains create an attractive setting, quite different from the desert character of courses such as Samanah or Assoufid.

AL MAADEN GOLF

Al Maaden Golf Club is one of Marrakech's most modern courses, appealing to players who want quality golf, Moroccan atmosphere and an unconventional design setting. The 18-hole championship course, designed by Kyle Phillips, stretches across open countryside with views of the Atlas Mountains. It offers a balanced mix of broad fairways, water, strategically placed bunkers and contoured greens. It is pleasantly playable for recreational golfers, yet interesting enough for experienced players who value tactical decisions and accurate approaches.

What makes Al Maaden Golf Club distinctive is its combination of golf, contemporary art and architecture. Original art installations, sculptures and design features accompany players around the course, giving it an individual character that sets it apart from Marrakech's traditional courses. Fairways lined with palms, olive trees and typical Moroccan vegetation create an elegant resort atmosphere. Water hazards and sandy areas add attractive risk-reward decisions. Every hole has its own rhythm and a different view of the surrounding landscape and the Atlas Mountains beyond.

Al Maaden Golf Club is ideal for golfers seeking golf in Marrakech, a modern championship course in Morocco and an experience that combines a sporting challenge with exceptional surroundings. Good maintenance, enjoyable playability, easy access from central Marrakech and its distinctive artistic character make it one of Morocco's most interesting courses. It is for players who want more than a round: atmosphere, space, views and the stylish side of one of North Africa's most attractive golf destinations.

ROYAL GOLF CLUB MARRAKECH

Royal Golf Club Marrakech is one of Morocco's most traditional courses, offering the distinctive atmosphere of classic club golf just minutes from central Marrakech. The grounds form a peaceful green oasis, surrounded by palms, eucalyptus, olive trees, cypresses and orange trees. They provide welcome shade and an unmistakably exotic character. Beautiful views of the Atlas Mountains add to the atmosphere of golf in the heart of Morocco.

The resort offers 27 holes, divided between the historic Old Course and the newer Menara Course. The Old Course focuses on accuracy, strategy and an unhurried pace of play, while the Menara Course has a more modern, open character. Mature greenery, a traditional clubhouse setting and a pleasantly varied layout offer golf with a very different feel from the modern desert resorts around Marrakech. Royal Golf Club Marrakech is ideal for golfers seeking authentic golf in Morocco, a course with a rich tradition, beautiful natural surroundings and an atmosphere to remember.
